

Cold Remedy

This one is going to need you to have a little faith. This download boosts the immune response of your body to get rid of a cold quicker.

Note that because this is more geared to boosting your immune system, it can be used to combat any virus your body is fighting, not just colds. The more severe the problem, the longer it may take for the remedy to take effect.

Listen a couple of times as soon as you get the first hint of a cold, then daily for as long as you have any symptoms. I would expect you to see an immediate change in your symptoms, even to a small degree. Within 2 days most symptoms should be either gone or significantly reduced. As this is non-medicinal you can listen as often as you need.

This download is just an MP3 file that can be put on any device. If you put it on your phone it means that you can listen to it whenever you have symptoms. Listening to this download will allow you to get on with your day in whichever way you want to.

Buying this download is a one off cost. Once purchased the file is yours to use as many times as you want on as many of your own devices as you need to. Anyone else wanting to benefit from the download will need to purchase their own copy.

Thank you for buying the Cold Remedy download
