

Pain Relief

Wouldn't it be nice to not have to take a pill when you had a headache or any sort of mild pain? Maybe you can't take a tablet for medical reasons or maybe you are already on tablets for something else and you're struggling when the effects wear off and it's too early to take another one.

All you need to do is listen to this download whenever you have any sort of pain you need to get rid of. It is only a couple of minutes long and works quicker than a paracetamol.

This download is just an MP3 file that can be put on any device. If you put it on your phone it means that you can listen to it whenever you have pain. Listening to this download will allow you to get on with your day in whichever way you want to.

Please note pain is our body's way of warning us of a problem. No matter how well this works, if you are repeatedly getting pain you should seek medical advice.

Buying this download is a one off cost. Once purchased the file is yours to use as many times as you want on as many of your own devices as you need to.

Anyone else wanting to benefit from the download will need to purchase their own copy.

Thank you for buying the Pain Relief download
